

Cartwright celebrate 30 year anniversary

We are excited to announce that we are celebrating our 30 year anniversary with the launch of a fresh new brand identity.

Since 1986, we have grown at a steady and measured pace, holding to the philosophy that stability and consistency are vital to providing the first class customer service we believe in.

This deliberate strategy has led to many of our current clients being with us for more than 20 years and being served by the same team throughout.

Ian Cartwright, our founder and chairman says "We have always looked to provide a best in breed service and to achieve this by recruiting and retaining top talent. Our business model of staff ownership is key to our ability to do just that."

Our business is owned by our long serving staff, who are passionate about their company and in the quality of service we provide.

Our structure, with no external shareholders or parent company seeking to benefit financially, allows a high level of continual investment in people development and state of the art technology. This includes the development of our own software tools designed specifically for the small to medium size schemes we serve.

The stability of the business is further enhanced by the deliberate absence of an 'exit strategy'. In a world where the sale of small and medium size consultancies has become the norm, we may be unique in our 'we will not be sold' philosophy. Indeed for some of our newer clients who have experienced the disruption of an acquisition of their previous provider, and the slide in service levels that brings, our guarantee that we will not be sold is a major comfort.
